INTRODUCTION

R. L. POLK & CO., publishers of more than 800 city, county, state and national Directories, present to subscribers and the general public, this, the 1946-47 edition of the Gloucester City Directory, including Rockport.

Confidence in the growth of Gloucester's and Rockport's industry and wealth, and in the advancement of their civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Gloucester and Rockport to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Gloucester and Rockport Directory will fulfill its mission as a source of authentic information pertaining to the cities.

Five Major Departments

The five major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, on white paper, pages 8 to 22 for Gloucester and 345 to 348 for Rockport, presents lists of city, county, state and federal officials, post office information, schools and institutions, with officers, courts holding sessions in the city, population tables, statistical review, and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, on white paper, is included in pages 25 to 234 for Gloucester and 349 to 388 for Rockport. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Gloucester and Rockport, and the name, official personnel, nature and address of each firm and corporation in the city.

THE BUYERS' GUIDE beginning opposite page 236, printed on tinted paper in a separate series of pages from 1 to 52, contains the advertisements of leading banking, manufacturing, business and professional interests of Gloucester and Rockport. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a great commercial and industrial center like Gloucester, the necessity of having this kind of information immediately available is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 237 to 268 for Gloucester and 389 to 395 for Rockport, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 269 to 343 for Gloucester and 397 to 412 for Rockport. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Gloucester and Rockport.

The Gloucester Directory Library

Through the courtesy of the publishers of the Gloucester City Directory, a Directory Library is maintained in the Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive and professinal men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Statistical Review

Form of Government: Commission composed of Mayor and four Aldermen.
Normal Population: 24,862 (State Census 1945).
Summer Population: 40,000 estimated.
Area: Thirty-six square miles.
Altitude: Fifty-seven feet.
Assessed Valuation: Personal $3,603,425 (1946); Real Estate $33,683,475 (1946); Automobile $523,180 (1945); Vessels $3,809,205 with $41.00 tax per $1,000.
White Population: 24,862.
Colored Population: None.
Native Born Population: 85 percent of whole population.
Predominating Nationalities in City: Native American, Italian, Portuguese, Finnish, English.
Parks and Playgrounds: Eleven with 700 acres.
City's Bonded Debt: $1,299,000.00 (Dec 31, 1945).
Financial: Two National banks, One Trust Company, with total deposits of $21,232,940.-53, resources $22,645,574.82. One savings bank with total deposits of $10,053,071.57; resources $10,981,495.15; One co-operative bank with total resources of $4,506,057.00.
Post Office Receipts: $179,000.00.
Telephones in Service: 7,948.
Church Buildings: Twenty-three.
Real Estate: Dwellings total number 6,145; total area 26.5 square miles.
Trade: Territory (Retail) serves 40,000 people within the trading area covering a radius of thirteen miles.
Hotels: There is one commercial hotel open all year, with total of twenty-seven rooms; also fifteen hotels which operate only in the summer months.
City Served By: Boston & Maine railroad.
Amusements: There are two theatres, with a total seating capacity of 2,132 people.
Hospital: One with eighty-five beds, fifteen bassinets.
Education: Number of schools, 18, including 1 high school, 1 parochial school. Number of pupils in public schools 3,436. Total of all teachers is 160. Value of all school property, private and pubic, approximately $1,963,441.
Libraries: There are about 35,000 volumes in the library of the city.
City Statistics: Total street mileage two hundred eighty, with one hundred twenty miles paved, seventy miles semi-public, gravel, oiled; and ninety miles unimproved. Miles of gas mains laid, fifty-nine, of sewers, nineteen and one-half miles main lines (approx). Capacity of water works (municipal) 716,176,000 gallons, daily average pump of 1,962,000 gallons 1945) with 103.2 miles of mains and value of plant estimated at $3,294,585.25. New distributing reservoir has been built at Bond's Hill, with a 6,000,000 gallon capacity in place of old 3,000,000 gallon capacity.
Fire Department: Employs 77 men including a chief, two deputy chiefs, a motor supervisor, 5 permanent captains, 37 permanent men, 28 callmen and 3 reserves, with the following equipment: 5 pumping engines (combination), 3 ladder trucks, 2 hose wagons, 1 combination hose and water truck, 1 squad wagon, one straight chemical and a chief's car and 6 auxiliary pumpers. There are five fire stations. Value of fire department property $290,000.
City Electrician: Has two cars in service.
Police Department: Has 29 regular men, 23 patrolmen and 6 superior officers and 7 reserve men with 1 station and 10 pieces of motor equipment and 1 police boat. 4 pieces of apparatus and the police boat are equipped with two-way radios.

GEOGRAPHY

Gloucester is located about thirty miles northeast of Boston, Massachusetts. The original town of Gloucester occupied the whole northern promontory of Massachusetts Bay, known as Cape Ann and was bounded on the north by Ipswich Bay, on the east by the Atlantic Ocean, on the south by Massachusetts Bay and on the west by the towns of Manchester, Essex and Ipswich.

Cape Ann is divided into two nearly equal sections by the Annisquam River, an arm of the sea extending from Ipswich Bay about four miles towards and into Gloucester Harbor. Gloucester of today retains practically its same boundaries and includes the follow-

ing districts: Magnolia, Annisquam, Riverdale, West Gloucester, East Gloucester, Bay View and Lanesville. The northeastern portion of the Cape, however, which was included in the territory of the original town of Gloucester, is separated into what is known as the town of Rockport, the extreme end being known as Pigeon Cove.

The principal harbor is on the south side of the city and is formed by Eastern Point—a strip of unequal width extending in a southwesterly direction about three miles—a rock bound coast that defies the violence of surging waves dashing almost constantly against it, and affording within a safe shelter and anchorage for a large fleet.

The surface of the town is uneven; and its peculiar character strikes every beholder at first sight with astonishment. Bald, rocky hills, bold and precipitous ledges of rock, with acres of bowlders of various sizes, in many places scattered thickly over the surface, combine to present a rare scene of naked ruggedness. The small tracts and patches of clear land, by which this view of barrenness is occasionally relieved, are covered with a strong and fertile soil, suited to the growth of most of our New England agricultural products.

The rocks of Cape Ann are granite, of a beautiful, dark color and are easily wrought into blocks of any needed size. Quarries formerly operated in different localities, several at Rockport, at the lower extremity of the Cape; others at Lanesville and at Bay View—suburban districts of Gloucester proper. The products of these quarries in the form of monuments, decorative ornamentations, paving blocks, etc. have been shipped to every part of the world.

In all, Cape Ann is picturesque. It is truly typical of the rock bound coast of our northern Atlantic States. A drive around the shore road from which an open view of the ocean is afforded practically throughout the entire route, presents a picture of rugged rocks dashed over with spray, these interposed with as many as forty beaches of various sizes around the entire Cape. The drives around Cape Ann are pretty. The inland roads through wooded sections of hard-wood growth give a touch of country life in sharp contrast to the rugged scenery along the shore.

HISTORY

From the time of the early explorers Gloucester, Mass., has occupied a large place in the history of New England and the nation. It is claimed that the Norsemen in 1001 skirted the New England Coast, which they called New Vineland and landed here. It has also been said that they called the place "Kroasnes", the Cape of the Cross; that they were attacked by the Indians, their chieftain, Thorwald, being killed and buried on shore. In 1605, as authentically recorded, Champlain, on a voyage of exploration and discovery sailed about the cape which he named CAPE AUX ISLES.

The next year in early September he founded what is now Eastern Point and came to anchor in the inner harbor between Five and Ten Pound Islands—so named for the sums for which they were purchased from the Indians in Colonial times. Champlain was charmed with the place and made a prolonged stay. His name for it was singularly appropiate, "Le Beau Port", the Beautiful Harbor.

After Champlain's departure came Captain John Smith and Miles Standish with his company of followers. The honor of making the first settlement, however, which was also the first permanent settlement in Massachusetts Bay, belongs to the Dorchester Colony, a company formed by the Rev. John White, a Puritan minister, rector of StPeter's church of Dorchester, England. His colony sailed for and reached what is now Gloucester in 1623, not, as had been supposed, for the purpose of escaping religious persecution. Its real object was the pursuit of the fisheries which had been successfully carried on off the New England Coast since 1606. The site of the first settlement was at Stage Fort, now a public reservation known as "Stage Fort Park", where their landing is suitably commemorated with a bronze tablet which bears an inscription telling the story of their original landing.

In 1624 Roger Conant was appointed Governor and the Colony attracted much attention. Its interests were concerned entirely in fishing and farming. The fisheries were successfully pursued and good catches sent to Balboa, Spain, but the arable land of the Cape was exceedingly limited. This latter fact resulted in the agricultural part of the colony moving to Salem. Those remaining, however, were joined by others from time to time, among them being a colony from Plymouth in 1630. In 1632 the first church was built and services held. In 1639, the General Court was asked to incorporate the town. A charter was granted in 1642, the town taking the name of Gloucester from the cathedral city in England, whence many of the early settlers came.

The history of Gloucester is entwined with events of national importance. It tells us the story of the expedition against Louisburg, the Gibraltar of America,—how these men, in a craft commanded by Captain Sanders an in a land company under Captain Byles, gave splendid service in reducing that stronghold; they were with Wolfe at Quebec and were in the foreground when the flag of France was lowered for the last time on the American Continent. In the Revolutionary War, the Civil War, in the Spanish American War and in the World War, the call to arms has ever been answered by the population of this fishing city. Their services have been rendered on land and sea and they have left behind a record of which any community may well be proud.

FISHERIES

Destiny ordained that Gloucester should be the first and greatest fishing port in the New World. Back as far as 1602, that daring navigator, GOSNOLD, found that codfish were plenty in Massachusetts Bay and for twenty years before a permanent settlement was made here, the fisheries were pursued off this coast with profit. Destiny also took a hand when the Dorchester Company set out from

England in 1623 to engage in a fishing trip and also to found a permanent colony. The ancient records tell us that the expedition had no definite place in view for settlement and that arriving late in the season at the fishing grounds on the Maine coast, finding the fishing poor and in hopes of making up a full fare, the voyage was continued to Massachusetts Bay. Our first colonists, therefore, were fishermen and the first business of the place was fishing.

With the exception, possibly, of a very few years immediately following 1626, the fisheries have been followed from this port throughout all these 300 years, practically without interruption. Its history is a fitting story of a hardy race of fisher folk, who have ever braved the call of the deep in the pursuit of their industry which today ranks as the oldest in Massachusetts. It teems with stories of self-sacrifice and valor. It has been a costly industry, however. Braving the storms and perils of the ocean in seeking their existence, scouring the seas almost to the Arctic Circle in their perilous quest, at the mercy of the storms and the heavy fogs, the treacherous shoals and drifting boats, over 8,000 of these men have been sacrificed in this perilous calling.

The name of Gloucester has been associated with the curing, catching, packing and distribution of fish since its early settlement in 1623. This industry may truly be said to be the corner stone upon which the city's prosperity and reputation has been based, although at the same time other pursuits have gained ground and prospered.

"Gloucester now has 23 firms engaged in handling and processing fish. It has more than 200 vessels of from 5 to over 100 tons gross engaged in off-shore fishing, and more than 100 under 5 tons gross engaged in inshore fishing and lobster fishing. Crews of Gloucester fishing vessels total more than 2,200. The total number employed in shore plants varies from 1,800 to 2,500 during the peak production season.

Gloucester has a new million dollar State Fish Pier which started operating early in 1939, located at the foot of Parker Street and over-lapping Five Pound Island. It has a modern cold storage plant with present capacity of 5,000,000 pounds, which will be increased shortly to 7,500,000 pounds. This pier is equipped to engage in an extensive fresh fish business. Individual stalls are rented to operating firms.

Landings of fresh fish at Gloucester increased from 44,699,000 pounds in 1937, with a value to fisherman of $861,728, to a total of 213,497,000 pounds in 1945, with a value to fishermen of $11,184,000. During the years 1943-1945, Gloucester was the largest producing port of edible fish food in the country".

MANUFACTURING AND LOCAL INDUSTRIES

Gloucester has many other industries aside from the fisheries but one directly connected with these, is the manufacture of liquid fish glue. The ancient Greeks and Romans knew that a strong adhesive could be extracted from the skins of certain fish, and used this adhesive for such delicate purposes as fastening precious stones in their setting. Fish glue, however, was made in very small quantities and had to be used immediately. It was not until the last century, sometime between 1870 and 1875, that liquid glue was made a commercial possibility by the discovery of means whereby it might be permanently preserved in liquid form.

Formerly, quarrying of granite was a very important industry. In recent years, quarries at Rockport have been closed, and the industry there is concerned principally at the present time in the cutting of granite pavement blocks.

Ash sifters, automobile-tops, awnings, barrels, boats, box shooks, bread, castings of iron and brass, chicken feeds, cigars, codliver oil, cookies, copper paint, crackers, dip nets, drop forgings, fertilizers, fish—fresh, salted, smoked and canned, fishlines, fish meal, fishing tackle, fish-traps, flags, foghorns, glue, granite, hammocks, hawsepipes, hosiery, inks, iron forgings, iron-work for vessels, machinery for cold storage, masts, men's clothing, mucilage, nets, oiled clothing, overalls, pants, paste, pastry, patent bits, patent steering wheels, paving blocks, pipeless heaters, plant boxes, porch dresses, printing, refrigerators, rudder braces, sails, sand soap, seines, sheeplined coats, ships' blocks, shoes, showcases, smokestacks, spars, steel forgings, stove polishes, street dresses, tanning oils, tents, traffic signs, trawl nets, truck bodies, ventilators, vessel steerers, windlasses for vessels, wooden boxes and drums, yacht steerers.

While Gloucester is situated far from the sources of supply of some raw materials, yet we have several advantages over inland cities. For instance, the city is on the sea coast where it can obtain its coal supply direct by water, at a cheaper rate than by rail. It has a direct freight line by water to Boston, with daily service. It is located on the Boston & Maine Railroad, with a schedule of sixteen trains daily to and from Boston.

SUMMER COLONIES

The whole of Cape Ann is an ideal resort for the summer tourist. Its admirable location, surrounded practically on every side by the open sea, its magnificent summer climate, never extreme on the hottest days in summer; its natural rugged beauty; its many beaches, both large and small; its pretty inland roads through hard wood groves; its splendid summer cottages and hotels; all combine to make Cape Ann a splendid summer home for those who wish to escape the monotony of city life. Gloucester has long since taken its place as the ideal summer resort. To point out any particular charm it may hold for the summer visitor is difficult, for the attractions are many and of sufficient varieties to satisfy the most exacting critic.

It combines within a radius of one-half dozen miles practically every type of natural scenery found anywhere. Its picturesque harbor wharves, inspiring in thought the 300 years of struggle with the sea that its fishermen have endured in the pursuit of its industry; its many boats entering and leaving the harbor in plying their trade; its foreign fishing colonies,—those of the Italian and Portuguese; its beaches and parks; combine to make Gloucester ideal to the tourist.

CHURCHES

Church influence is strong in Gloucester, many social and welfare activities centering in the church organizations, of which there are twenty-five in the city. The first church was organized in 1632.

There are over ninety clubs and fraternal organizations in the city, including the Woman's Club, Rotary Club, and the Gloucester Chamber of Commerce.

Good government, good roads, good schools, congenial social conditions, a high standard of citizenship, convenience to shipping points, nearness to a market, excellent transportation facilities, abundant recreational and amusement facilities, the advantages of homes in the open spaces combined with urban conveniences—these are the qualities that go to make a city desirable—and Gloucester has them all.

ROCKPORT

Rockport, or Sandy Bay, as the town was formerly called, was a part of Gloucester until 1840 when it was incorporated and set up its own town Government. Like Gloucester, its inhabitants early engaged in the fishing industry, but not possessing the facilities for large vessels the pursuit of this industry has been largely confined to the shore fisheries, the trapping of lobsters forming the major portion of the business as carried on today.

Rockport granite is known the country over and the quarries at Rockport, Pigeon Cove and Bay View have produced many thousands of tons of this valuable stone and have furnished employment to several hundred workmen. The industry dates from about 1823, when the quarries were first worked, and has furnished granite for government fortifications and navy yards, Boston Custom House Tower, Woolworth Building in New York, and Brooklyn Bridge.

The summer colony has grown considerably in the last twenty years. A cleaner and more wholesome town in which to spend the summer cannot be found in New England. There are a number of good beaches, a beautiful shore drive, and the ocean scenery is unsurpassed. Many artists make their homes here during the summer months and find interesting subjects to transfer to their canvasses along the quaint old wharves and rugged shore.

The breakwater erected by the government has given Rockport a safe harbor, available for large vessels of all types, and the town is often visited during the summer by some of the fleets of United States Warships.

GLOUCESTER CHAMBER OF COMMERCE

The Gloucester Chamber of Commerce is organized for the service of the public and for the promotion of the business and industrial growth of the community. Further information regarding manufacturing opportunities, business facilities and residential advantages, will be gladly supplied upon request by the Gloucester Chamber of Commerce, 120 Main street.

POINTS OF INTEREST

Annisquam Light, at the extreme end of Annisquam Point. Iron light tower

Babson House, at Pigeon Cove, erected by three men who fled from Salem about 1698 with their mother charged with witchcraft and hid in this house

Babson House, Riverdale, built about 1740 by Joseph Allen. Said to still retain the slave pens used during the slavery times

Cape Pond, on the road to Rockport; water supply for Rockport

Coffin's Beach, near Willoughby Park, now called Wingaersheek Beach. Unusual sand dunes. Take West Gloucester drive to Concord street; through Concord street to Atlantic street; thence to the beach

Dennison House, Bay View, built about 1727

Dog Bar Breakwater, Eastern Point

Dogtown Common. May be visited by way of Washington street and Gee avenue

Eastern Point Light. May be reached by the government road. Niles' Beach and Pond are on the road

Ellery House, Riverdale, built between 1704 and 1710 by Rev John White. Used for a long time as a tavern. Contains many interesting relics

Five and Ten Pound Islands, in Gloucester Harbor, so named from the fact that five and ten pounds respectively were paid for them. On the latter are the buildings of the United States Bureau of Fisheries and lighthouse

Freeman House, W Gloucester, was erected previous to 1700, and used as a tavern for years

Good Harbor Beach, at Bass Rocks

Governor's Hill, to the left of Washington street by way of Commonwealth avenue; commands a fine view of the city and harbor

Granite Quarries, at Pigeon Cove, may be seen on the drive around the Cape. The quarry of the Rockport Granite Company may be seen from the main road

Independent Christian Church. The first Universalist Society in America. Organized 1770. Present building built in 1806, Middle cor Church

Joan of Arc, World War Veterans Monument, Old Town Hall square, junction Washington and Middle streets

Mount Anne Park, formerly Thompson's Mountain given to the city by Minot Brothers of Boston, in West Gloucester. The highest elevation on Cape Ann, being 255 feet above sea level, commanding an extensive view

Niles' Pond, Eastern Point, a State pond at East Gloucester, containing pickerel and other fresh water fish

Norman's Woe, known wherever English is spoken through Longfellow's "The Wreck of the Hesperus". May be visited on the drive to Magnolia. Not visible from road

Old Fort, at Eastern Point, just off the road to Eastern Point Light, erected 1862

Old House on Cape Ann. Built at Goose Cove by Thomas Riggs, the first schoolmaster and town clerk. Take road on the left approaching the Willows

"Old Mother Ann", at the extremity of Eastern Point. A perfect contour of a woman in a reclining position

Pavilion Beach, just off Western avenue near Main street

Public Landing, Rogers street foot of Washington street

Rafe's Chasm, Magnolia, is a fissure in the solid rocks, some sixty feet deep and twelve feet wide at the mouth, gradually growing narrower as it runs inland

Ravenswood Park. Bequeathed to the city by the late Samuel E Sawyer, to be preserved as a wild park, on Western avenue, near Fresh Water Cove

Riggs House, 10 Vine street. Oldest house on Cape Ann

Sargent Murray Gilman House, 47-49 Middle Home of the Rev John Murray, first Universalist minister in America

Sawyer Free Library, 88 Middle. An example of fine interior architecture of the Colonial Period

Stage Fort Park, was purchased by the city in 1898. On Western avenue. An excellent view of the harbor and city

Thatcher's Twin Lights, on Thatcher's Island, the outpost of Cape Ann. They may be visited by hoisting a signal which will be found on shore at the mainland's nearest point to the island

United States Fish Commission Hatchery, on Ten Pound Island in the harbor. Open to the public

United States Life Saving Station, Fresh Water Cove

United States Naval Compass Station, on Thatcher's Island

Willoughby Park, in West Gloucester, by way of Essex avenue and Atlantic street

DRIVES

Drives around the Cape. May be made via Eastern avenue to Rockport first, or in the opposite direction via Washington street

Around the Big Heater. Through Western and Essex avenues to Essex, thence to Manchester, and thence home by way of Western avenue

Around West Gloucester. Through Western and Essex avenues to Concord st, thence through Concord and Atlantic streets to Willoughby Pk. and Wingaersheek Beach. Concord street may be taken to Essex on return

To E Gloucester and Eastern Point. Through Main street and East Main street to Eastern Point; thence along the ocean to Bass Rocks, continuing around to East Main st again

To Magnolia. Through Western avenue, past Stage Fort Park and Ravenswood Park. This is a part of the Manchester drive

To Manchester. Through Western avenue to Magnolia and Manchester

To Wingaersheek Beach. See West Gloucester drive

PARKS AND PLAYGROUNDS

Benjamin Smith Playground, E Main junction of Sayward and Haskell

Burnham's Field, Pleasant st

Dogtown Common, east of Washington street and Gee avenue, Riverdale

Edward Dolliver Newell Stadium, Centennial av

Governor's Hill City Reservation, Commonwealth avenue, Beacon and Lookout sts

John J Burke Park, Western av nr Magnolia av, Magnolia

Joseph Mattos Playground, Webster st

Ledgemont Avenue Park

Marine Park, Western avenue, at Blynman Bridge

Maxwell Parsons Playground, Davis st E G

Mount Anne Park, 50 acres, off Essex avenue, near Post Office, West Gloucester. Given by the Minot Brothers of Boston to the State of Massachusetts for a public reservation

Ravenswood Park, off Western avenue. This park was donated by Samuel E. Sawyer, to be preserved as a wild park

Stage Fort Park, off Western avenue, opposite Essex avenue

West Gloucester Playground, Essex av

INFORMATION

in the mass seems like a dull proposition but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use of it however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to any one. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much.

In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

CONSULT YOUR DIRECTORY

Accurate Information is worth all it costs.

WHY A BUYERS' GUIDE?

★ It is customary to include a Buyers' Guide in the City Directory because . . .

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED

IF YOU ARE IN A ***BUSINESS FOG*** *IN THE AFTERMATH OF WAR*

● Let the City Directory help guide you to reorientation. It is the natural key to things as they are after the great upheaval. A recent Directory will provide the basis by which business can obtain a new grip on markets and a new appraisal of prospects. Pre-war guides of nearly all kinds are deader than a dodo today. Business now enters a new era of great possibilities. The City Directory hews to the line without propaganda, and new editions of this service reveal the great physical changes that have come over cities and communities during the past five years.

Business Men Need Such Information in Such Times!

GLOUCESTER STREET AND HOUSE DIRECTORY

Copyright, 1947, by R. L. Polk & Co.

Giving the location of Streets, Avenues, Places, Parks &c, showing what other streets and places run from or across them, and with a list of Householders and Places of Business arranged in Numerical Order upon their respective Streets.

The **Streets** are arranged in **alphabetical order** with the location of **Intersecting Streets** clearly shown.

The symbol ◎ following the name of a householder indicates that the house is owned by the person listed, or by some member of the family. This information is as received by the canvasser. The publisher does not and cannot guarantee its correctness.

Places of Business are indicated by bold face numbers and business being given.

The ♧ preceding names denotes householders and places of business having telephones.

*Denotes houses incorrectly numbered.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for THREE HUNDRED and FIVE days, therefore—

$$1000 \times 3\tfrac{1}{2} \times 305 = 1{,}067{,}500$$

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

ROCKPORT
STREET AND HOUSE DIRECTORY

Copyright, 1947, by R. L. Polk & Co.

Giving the location of Streets, Avenues, Places, Parks &c, showing what other streets and places run from or across them, and with a list of Householders and Places of Business arranged in Numerical Order upon their respective Streets.

The **Streets** are arranged in **alphabetical order** with the location of **Intersecting Streets** clearly shown.

The symbol ◎ following the name of a householder indicates that the house is owned by the person listed, or by some member of the family. This information is as received by the canvasser. The publisher does not and cannot guarantee its correctness.

Places of Business are indicated by bold face numbers and business being given.

The ♁ preceding names denotes householders and places of business having telephones.

*Denotes houses incorrectly numbered.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Don't Contribute to Counterfeiters

KNOW YOUR MONEY!

Don't Be Fooled by Forgers

KNOW YOUR ENDORSERS!

The Government never redeems counterfeit money!

1. KNOW YOUR MONEY! Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. COMPARE a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT — *Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.

Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.

COLORED SEAL — *Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.

Genuine—Saw-tooth points around rim are even and sharp.

SERIAL NUMBERS — *Counterfeit*—Poorly printed, badly spaced, uneven in appearance.

Genuine—Figures firmly and evenly printed, well spaced.

PAPER — *Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.

Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. RUBBING a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. CONSULT an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purohased for 10c each, or $7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.
